The good news about the program is that it won't break the bank. It's \$295 per CU (consumer update), or \$495 for a single workstation license, which includes all of the features in Creative Cloud. You'll be able to pick up Windows, Mac, or Windows/Mac versions. My favorite feature is Smart Sharpen. Though it's certainly a work in progress, it does a phenomenal job eliminating the grain-like appearance present in classic Sharpen, while keeping it smooth and natural. Also, the new "One Click" tools are a time-saver. You can delete one or multiple objects, change the fill of an outside object to match, or crop an object all in one step.
